

MS OFFICE PROFICIENCY TEST

MS Word • MS Excel • MS PowerPoint — Multiple Choice Questions

Total Marks:	75 (1 mark x 75 questions)	Time Allowed:	90 minutes
Difficulty:	Medium	Question Type:	Multiple Choice (single correct answer)
Name:	_____	Roll No.:	_____

Instructions

1. This paper contains 75 objective-type questions divided into three sections of 25 questions each: MS Word (Q1-25), MS Excel (Q26-50), and MS PowerPoint (Q51-75).
2. Each question carries 1 mark. There is no negative marking.
3. Each question has exactly one correct option out of the four given. Circle or mark the letter of your chosen answer.
4. The order of options (A, B, C, D) has been shuffled independently for every question — do not assume a pattern.
5. Answers should reflect the standard Microsoft Office ribbon/menu terminology as taught in class.

Section — MS Word (Q1 - Q25, 25 Marks)

- Q1.** Which feature allows you to see how a document will look before printing? [1 Mark]
(A) Quick Print (B) Read Mode (C) Print Preview (D) Print Layout view
- Q2.** What is a Section Break used for in a Word document? [1 Mark]
(A) To merge two documents into one (B) To end the document permanently (C) To apply different page formatting to different parts of the same document (D) To move to a new page without changing any formatting
- Q3.** Which ribbon tab contains the Mail Merge feature? [1 Mark]
(A) Mailings (B) Insert (C) References (D) Review
- Q4.** What does the 'Track Changes' feature do? [1 Mark]
(A) Records edits made by reviewers so they can be accepted or rejected later (B) Locks the document so no one can edit it (C) Permanently deletes edits made by reviewers (D) Automatically corrects grammar mistakes as you type
- Q5.** Which view displays a Word document as it would appear on a webpage? [1 Mark]
(A) Outline view (B) Draft view (C) Print Layout (D) Web Layout
- Q6.** What is the main purpose of using a Style in Word? [1 Mark]
(A) To password protect the document (B) To insert page numbers automatically (C) To count the number of words in a paragraph (D) To apply a consistent set of formatting attributes quickly and uniformly
- Q7.** Which feature automatically generates a list of headings with their page numbers? [1 Mark]
(A) Bibliography (B) Index (C) Cross-reference list (D) Table of Contents
- Q8.** What does the 'Format Painter' tool do? [1 Mark]
(A) Copies formatting from one piece of text and applies it to another (B) Copies only the text without any formatting (C) Deletes all formatting from the selected text (D) Compares formatting between two documents
- Q9.** Which option allows you to limit what changes others can make to a document? [1 Mark]
(A) Document Inspector (B) Mark as Final (C) Track Changes (D) Restrict Editing
- Q10.** Which References tab tool is used to credit a source you referred to in your document? [1 Mark]
(A) Caption (B) Bookmark (C) Footnote (D) Citation
- Q11.** Which feature lets you insert reusable, pre-formatted content such as a cover page? [1 Mark]
(A) Themes (B) Templates (C) Macros (D) Building Blocks / Quick Parts
- Q12.** How does a Section Break differ from a simple Page Break? [1 Mark]
(A) A page break allows different formatting per section, while a section break only moves to a new page (B) A page break only moves text to a new page, while a section break allows different formatting for each part (C) A section break can only be used once in an entire document (D) They perform exactly the same function
- Q13.** Which tool checks an entire document for spelling and grammar issues in one pass? [1 Mark]
(A) Thesaurus (B) Spelling & Grammar checker (C) AutoCorrect (D) Word Count
- Q14.** What does inserting a Watermark do to a document? [1 Mark]
(A) Highlights all misspelled words on the page (B) Adds a decorative border around each page (C) Places faint background text or an image behind the page content (D) Adds a footer showing page numbers
- Q15.** Which feature arranges body text into multiple newspaper-style columns? [1 Mark]
(A) Table (B) Tab Stops (C) Text Box (D) Columns
- Q16.** What is a Header used for in a Word document? [1 Mark]
(A) Displaying a summary of tracked changes (B) Displaying repeated content, such as a title, at the top of every page (C) Storing document metadata such as author name (D) Displaying a title only on the cover page
- Q17.** Which feature lets a reviewer leave a note on the text without changing the text itself? [1 Mark]
(A) Footnotes (B) Comments (C) Bookmarks (D) Track Changes

Q18. What does Mail Merge combine to create personalized documents? [1 Mark]

- (A) A main document with a data source, such as a list of names and addresses into a single file (B) Two separate Word documents
(C) A Word document and a PowerPoint presentation (D) Multiple templates into one combined theme

Q19. Which feature enlarges and styles the first letter of a paragraph? [1 Mark]

- (A) WordArt (B) Text Effects (C) AutoCorrect (D) Drop Cap

Q20. What kind of information is stored in a document's Properties? [1 Mark]

- (A) Only the file size and file format (B) A complete list of all tracked changes (C) Only the document's print settings
(D) Metadata such as the author, title, and creation date

Q21. Which feature converts a list into ordered items such as 1, 2, 3? [1 Mark]

- (A) Numbering (B) Indentation (C) Bullets (D) Tab Stops

Q22. What does the 'AutoCorrect' feature do? [1 Mark]

- (A) Automatically fixes common typing errors as you type (B) Saves the document automatically at set intervals (C) Suggests synonyms for selected words
(D) Highlights grammar errors for manual review only

Q23. Which ribbon tab is used to insert a table into a Word document? [1 Mark]

- (A) Design (B) References (C) Layout (D) Insert

Q24. What happens when you use 'Find & Replace' in Word? [1 Mark]

- (A) It can only find text but cannot replace it (B) It checks the spelling of the located word only (C) It locates specific text and substitutes it with new text throughout the document
(D) It highlights the located text in a different color permanently

Q25. Which feature lets text in a document link to a webpage or another file? [1 Mark]

- (A) Hyperlink (B) Cross-reference (C) Bookmark (D) Caption

Section — MS Excel (Q26 - Q50, 25 Marks)

Q26. What does the SUM function do? [1 Mark]

- (A) Adds all the numbers in a selected range (B) Counts all the numbers in a selected range (C) Multiplies all the numbers in a selected range (D) Finds the largest number in a selected range

Q27. Which function returns the average value of a range of numbers? [1 Mark]

- (A) MODE (B) MEDIAN (C) AVERAGE (D) COUNT

Q28. What is the purpose of the IF function? [1 Mark]

- (A) It always returns TRUE regardless of the input (B) It rounds a number up or down based on a condition (C) It returns one value if a condition is true and another value if it is false (D) It combines the values of multiple ranges into one

Q29. Which function looks up a value in the first column of a table and returns a value from another column in that row? [1 Mark]

- (A) HLOOKUP (B) INDEX (C) MATCH (D) VLOOKUP

Q30. What does 'Conditional Formatting' do in Excel? [1 Mark]

- (A) Restricts what values can be typed into a cell (B) Applies a fixed style to every cell in the sheet (C) Automatically changes a cell's appearance based on its value (D) Copies formatting from one cell to another

Q31. Which feature restricts what type of data can be entered into a cell? [1 Mark]

- (A) Data Consolidation (B) Data Validation (C) Conditional Formatting (D) AutoFilter

Q32. What is the purpose of 'Freeze Panes' in Excel? [1 Mark]

- (A) Keeps specific rows or columns visible while scrolling through the rest of the sheet (B) Hides selected rows or columns permanently (C) Splits the worksheet into two separate files (D) Groups related rows together for collapsing

Q33. Which feature summarizes large amounts of data using grouping and aggregation? [1 Mark]

- (A) Data Table (B) PivotTable (C) Named Range (D) Chart Wizard

Q34. What does the 'Sort' feature do to a dataset? [1 Mark]

- (A) Groups rows together based on cell color only (B) Removes all blank rows from the dataset automatically (C) Arranges rows in ascending or descending order based on a chosen column (D) Filters out rows that don't meet a condition

Q35. What is a Named Range used for in Excel? [1 Mark]

- (A) Giving a cell or range of cells a recognizable name for easier use in formulas (B) A print area defined for a single worksheet only (C) A macro that is assigned to a button (D) A temporary selection highlighted in a specific color

Q36. Which What-If Analysis tool finds the input value needed to reach a specific target result? [1 Mark]

- (A) Goal Seek (B) Data Table (C) Solver (D) Scenario Manager

Q37. What does the COUNTIF function calculate? [1 Mark]

- (A) The count of blank cells only (B) The number of cells in a range that meet a specified condition (C) The sum of cells in a range that meet a specified condition (D) The count of all non-blank cells regardless of condition

Q38. What does the SUMIF function calculate? [1 Mark]

- (A) The result of multiplying values that meet a specified condition (B) The count of cells that meet a specified condition (C) The total of values in a range that meet a specified condition (D) The average of values in an entire column

Q39. Which feature removes duplicate rows from a dataset? [1 Mark]

- (A) Text to Columns (B) Data Validation (C) Remove Duplicates (D) Filter

Q40. What is the purpose of 'Text to Columns' in Excel? [1 Mark]

(A) Automatically fills a pattern based on adjacent columns (B) Merges the content of multiple columns into one (C) Splits the content of a single column into multiple columns based on a delimiter (D) Combines several worksheets into a single sheet

Q41. What does 'Paste Special > Values' do? [1 Mark]

(A) Pastes only the cell formatting, not the data (B) Pastes only the calculated results of a formula, not the formula itself (C) Pastes a linked picture of the copied cell (D) Pastes the formulas exactly as written, including references

Q42. Which chart type is best suited for showing proportions of a whole? [1 Mark]

(A) Bar Chart (B) Line Chart (C) Scatter Chart (D) Pie Chart

Q43. What does 'Sheet Protection' prevent in Excel? [1 Mark]

(A) It compresses the overall file size of the workbook (B) Unauthorized changes to cells, formulas, or the structure of a worksheet (C) It permanently hides the worksheet from the workbook (D) It deletes all formulas from the worksheet

Q44. What error value is displayed when a formula divides a number by zero? [1 Mark]

(A) #REF! (B) #N/A (C) #VALUE! (D) #DIV/0!

Q45. What does 'AutoFill' do when a cell's fill handle is dragged across a series? [1 Mark]

(A) Extends only text values in alphabetical order (B) Extends a pattern or sequence automatically into the adjacent cells (C) Copies formatting from the cell without copying any data (D) Automatically sums the selected range of cells

Q46. Which feature lets you display only rows that meet specific criteria without deleting the other data? [1 Mark]

(A) Data Validation (B) Sort (C) AutoFilter (D) Group & Outline

Q47. What is the purpose of the 'Subtotal' feature in Excel? [1 Mark]

(A) Automatically inserts summary rows within data that has been grouped (B) Groups rows and columns for collapsing only (C) Creates a PivotTable from the selected range (D) Consolidates data from multiple separate workbooks

Q48. What does a Sparkline show in a worksheet? [1 Mark]

(A) A data label displayed on a separate chart (B) A miniature chart inside a single cell that shows a data trend (C) A full-size chart embedded directly in the worksheet (D) A conditional formatting icon set applied to a range

Q49. Which reference type keeps a cell address unchanged when a formula is copied to other cells? [1 Mark]

(A) Mixed Reference (B) Absolute Reference (C) Named Reference (D) Relative Reference

Q50. What is the main advantage of using a PivotChart along with a PivotTable? [1 Mark]

(A) It cannot be updated once it has been created (B) It works completely independently, without needing any underlying PivotTable (C) It visually summarizes the PivotTable's data and updates automatically when the table changes (D) It can only display numeric data formatted as text

Section — MS PowerPoint (Q51 - Q75, 25 Marks)

- Q51.** What is the purpose of a Slide Master in PowerPoint? [1 Mark]
(A) To create a printable handout of the slides (B) To control the default design and layout for all slides in a presentation (C) To rearrange the order of slides in the presentation (D) To control the layout of only one selected slide
- Q52.** Which view lets you rearrange the order of slides easily by dragging thumbnails? [1 Mark]
(A) Reading view (B) Notes Page view (C) Slide Sorter view (D) Normal view
- Q53.** What is the key difference between a Transition and an Animation? [1 Mark]
(A) There is no functional difference between them (B) Transitions apply to objects, while animations apply between slides (C) Transitions apply as you move between slides, while animations apply to objects within a slide (D) Both apply only to text objects on a slide
- Q54.** Which feature lets a presenter see their notes while the audience sees only the slides? [1 Mark]
(A) Presenter View (B) Slide Show view (C) Reading View (D) Normal view
- Q55.** What does the 'Rehearse Timings' feature do? [1 Mark]
(A) Automatically adds a transition to every slide (B) Records how long you spend on each slide during a practice run-through (C) Sets a fixed time limit that ends the show automatically (D) Records audio narration for the entire presentation
- Q56.** Which feature converts a bulleted list into a visual diagram? [1 Mark]
(A) Icons gallery (B) SmartArt (C) Chart tool (D) WordArt
- Q57.** What is the purpose of using Sections in a PowerPoint presentation? [1 Mark]
(A) To organize slides into labeled groups for easier navigation and management (B) To apply a separate design theme to each slide (C) To create a set of custom slide shows (D) To lock a group of slides from being edited
- Q58.** Which feature lets a click on a shape jump to a specific slide or open a file? [1 Mark]
(A) Action Button / Hyperlink (B) Animation trigger (C) Slide Zoom (D) Transition effect
- Q59.** How does embedding an object in a slide differ from linking it? [1 Mark]
(A) A linked object always stays inside the presentation file itself (B) An embedded object's data is stored inside the presentation file rather than referenced externally (C) There is no difference in resulting file size between the two (D) Embedding always increases the presentation's loading speed
- Q60.** Which pane displays speaker notes written for each individual slide? [1 Mark]
(A) Outline pane (B) Selection pane (C) Notes pane (D) Comments pane
- Q61.** What is the main purpose of applying a Design Theme to a presentation? [1 Mark]
(A) It applies a consistent color scheme, font set, and effects across all slides (B) It replaces all slide master settings with a template (C) It rearranges the placeholders on every slide (D) It changes the layout of only the currently selected slide
- Q62.** Which transition creates a smooth, movement-based effect between two slides with similar objects? [1 Mark]
(A) Push (B) Fade (C) Morph (D) Cut
- Q63.** What does creating a 'Custom Slide Show' allow you to do? [1 Mark]
(A) Present a chosen subset of slides in a specific order without altering the main presentation (B) Rearrange all slides permanently in Slide Sorter view (C) Automatically rehearse and record timings for every slide (D) Apply a unique design theme to selected slides only
- Q64.** Which slide show setting locks the presentation to loop automatically for an unattended kiosk display? [1 Mark]
(A) Set Up Show > Browsed by an individual (window) (B) Set Up Show > Presented by a speaker (full screen) (C) Insert > Custom Slide Show (D) Set Up Show > Browsed at a kiosk (full screen)
- Q65.** What is the purpose of the 'Header & Footer' settings in PowerPoint? [1 Mark]

(A) To set the timing of animations across all slides (B) To add consistent elements like the date, slide number, and footer text across slides (C) To change the theme colors used for the presentation (D) To change the font settings defined in the Slide Master only

Q66. Which feature hides a slide from playing during the slide show without deleting it? [1 Mark]

(A) Hide Slide (B) Duplicate Slide (C) Delete Slide (D) Collapse Section

Q67. What does exporting a presentation to video format preserve? [1 Mark]

(A) Only the speaker notes converted into subtitles (B) Only the slide text with no design elements (C) Animations, transitions, and slide timings as a playable video file (D) Only static images of each slide with no motion

Q68. Which placeholder type is designed to hold a picture, chart, table, or SmartArt directly from a layout? [1 Mark]

(A) Slide Number placeholder (B) Footer placeholder (C) Title placeholder (D) Content placeholder

Q69. What is the purpose of the Animation Pane? [1 Mark]

(A) To select and manage objects layered on a slide (B) To view, reorder, and control the timing of multiple animations on a slide (C) To preview transition effects between slides (D) To view and rearrange the order of slides

Q70. Which feature lets reviewers add notes on a slide without altering its content? [1 Mark]

(A) Track Changes (B) Comments (C) Annotations during Slide Show (D) Speaker Notes

Q71. What does the 'Format Background' option let you change? [1 Mark]

(A) The fill color, gradient, or image used behind the content of a slide (B) The design theme applied across the presentation (C) The font styles defined for slide titles (D) The layout of placeholders on the Slide Master

Q72. Which view shows only the text content of slides in an outline form for quick editing? [1 Mark]

(A) Notes Page view (B) Slide Sorter view (C) Reading View (D) Outline View

Q73. What is the main purpose of inserting a Table into a slide? [1 Mark]

(A) To apply a new theme to a single slide only (B) To insert a hyperlink that opens another file (C) To automatically animate bullet points one by one (D) To organize and display data clearly in rows and columns

Q74. Which setting ensures slide numbers update automatically as slides are added or removed? [1 Mark]

(A) A locked numbering style set in Slide Master that cannot change (B) Section Header text (C) Manually typed numbers on each slide (D) Slide Number (Insert > Header & Footer)

Q75. What does the 'Duplicate Slide' command do? [1 Mark]

(A) Creates a brand-new blank slide after the selection (B) Adds the selected slide to a new section (C) Creates an exact copy of the selected slide for further editing (D) Hides the selected slide from the slide show

— End of Question Paper —
